BIG STRIKE FAILED TO MATERIALIZE

New York Laborers Slow About Joining Strikers—Little Evidence Seen of Strike.

New York, Sept. 28.—Labor union leaders appear to have met small successes in their renewed efforts to bring about the promised general strike to aid the striking traction employees which was called for yesterday. Despite the claims that the number responding totals more than a hundred and twenty-five thousand, police officials say if a strike is in progress there is no evidence of it. Ernest Bohm, state organizer said: "We have a hundred and sixty-three thousand out now." The police reports said twelve thousand tunnel workers in the new subway were preparing to strike. M. G. Scott, president of the International Typographical Union said the executive committee of the organization would not sanction the strike.

AUTOMOBILE LICENSE RECORD IS BROKEN

Saturday was a record day in County Clerk Higgs' office for marriage licenses and Monday was a record day for the issuance of automobile licenses. There were seven licenses issued Monday for automobiles, which attests to the fact there is plenty of money in Brazos county and the people do not propose to let it lie idle. They are going to have at least a little pleasure in riding as they go along through life.

Following is the registration Monday:

- 349—Tom Vententick, Edge, Chevrolet.
- 350—E. T. Graham, Rock Prairie, Saxon Six.
- 351—Sim Wolton, Bryan, Chevrolet.
- 352—Cliff Harris, Bryan, Chevrolet.
- 353—Antone Zak, Bryan, Route 3, Saxon Six.
- 354—J. S. Doane, Bryan, Chevrolet.
- 355—J. E. Harper, College, Ford.

VILLA PREPARING TO INVADE TEXAS

Such Report Was Received But Not Vouched For By American Officers.

Field Headquarters, Mex., Sept. 28. Villa with six hundred men was on Santa Clara ranch thirty miles east of Namiqulpa on September 22 for the immediate purpose of capturing trains near Laguna and with the ulterior motive of striking north and invading Texas, according to the latest and most detailed report of the bandit leader's movements received here, but same is not vouched for by the American officers.

CLOSELY GUARDING HEALTH OF TEXAS

Stations to Be Established by Federal Government at El Paso and Other Border Towns.

(By Associated Press) El Paso, Texas, Sept. 28.—Fumigation stations will be established by the federal government at El Paso, Eagle Pass, Laredo and Brownsville, and every person entering Texas from Mexico will be subject to fumigation for disease. This announcement was made Wednesday by Dr. C. C. Pierce of the United States public health service, who arrived here and ordered work started at once on the El Paso station.

Dr. Pierce plans to direct the starting of work on the proposed buildings at other border points next week, he said.

All of the fumigation stations are to be built of brick and will be equipped with modern fumigation machinery. This machinery already has been shipped to the border at Laredo, Dr. Pierce said.

Over fifty years the Singer Sewing Machine has been the leader. They are better today than ever. Sold for cash, or small monthly payments. Rented weekly or monthly. Adjust and repair all makes. Phone T. A. Satterwhite.

KING CONSTANTINE DECIDED TO DECLARE WAR

That Greece Has Finally Decided to Enter the War On the Side of the Allies Is Definitely Stated By the Associated Press—The Decision Was Made by the King Who Will Order an Immediate Declaration Against Bulgaria—The French and British Claim Advances On Western Front While Germany Claims They Were Repulsed at Various Points—It Is Also Claimed a Further State of Revolution Will Be Declared in Greece.

Athens, Sept. 28.—The Associated Press is in position to state positively that King Constantine decided this morning in favor of an immediate declaration of war on Bulgaria.

Reports that mobilization had been ordered were premature. After the session of the council of ministers, the premier called a cabinet meeting and announced a note might be addressed to Bulgaria of such character that mobilization would logically follow.

Later it developed the king decided on a declaration of war against Bulgaria. The decision was not announced publicly because the details remain to be worked out. They include an ultimatum demanding the evacuation of all Greek Macedonia.

Germans Repulsed. London, Sept. 28.—The Germans were repulsed again last night with heavy losses in a strong attack between Thiaumont and Fleury on the Verdun front, says the French war office statement.

On the western Macedonian front two Bulgarian attacks were repulsed by the French and Russian forces, and on the Struma front near Janina the British artillery is very active, according to Paris.

Berlin says the Germans yesterday victoriously repulsed the Anglo-French forces on a great part of the battle front between Ancre and the Somme.

London reports an advance for the British last night at various points between Martin Puich and Gueudecourt. German aviators dropped many bombs on Bucharest yesterday, says the Berlin statement, which adds that at several points the Rumanian capital "is still burning as a result of a previous attack."

To Declare Revolution.

Paris, Sept. 28.—A great meeting will be held at Mytilene tomorrow at which a revolution will be proclaimed, says a Havas dispatch from Athens.

HUSBAND HURRIES TO BEDSIDE OF WIFE

Survivor of Triple Shooting Yesterday in Philadelphia Has Good Chance to Recover.

(By Associated Press) Philadelphia, Sept. 28.—Hurrying to the bedside of his wife, the only survivor of the triple shooting yesterday, J. C. Leduc of Chicago, said he had every confidence in her loyalty and would stick to her through her trouble. It was an affecting meeting at her bedside. According to physicians the woman is improving and probably will recover unless complications set in. Mrs. Leduc, who before her marriage was Lillian Kappes of Cincinnati, had been studying operatic singing for ten years.

FINE CANNING DISPLAY.

Six Hundred Cans Put Up by Two Young Ladies.

Farm Demonstrator C. L. Beason and Mr. H. J. Tuffley made a trip to the country Wednesday and stopped at the home of Mr. J. M. Conway of Steep Hollow to see the wonderful exhibit of canned goods put up by Mr. Conway's daughters, Misses Florence and Agnes. These young ladies are members of the girls' canning club of Brazos county and each, under the rules of the club, has cultivated a tenth of an acre of land in tomatoes, from which they gathered a thousand pounds each.

Both gentlemen declared they had never seen a finer display of canned goods, and especially so as the young ladies planted and cultivated the fruits and vegetables themselves. Both girls are ambitious for an education and are planning to enter the Bryan High School next session and upon finishing here will go to the State University.

In the display there were 600 cans of various products, embracing almost every vegetable grown, also a splendid assortment of preserves, tomato catsup, relishes, grape juice, etc.

AGGIES HARD AT WORK.

Coaches Harlan and Graves Well Pleased Over Outlook.

Captain "Dough" Rollins and a squad of 24 candidates for the Aggie football team started practice in earnest Monday with two-hour workouts morning and afternoon. Coaches Harlan and Graves are both on hand, well pleased with the old and new material available and the general good condition of the men. The line candidates look especially good. Crow and Settegast, last year's tackles, are both at College, but have not reported in uniform. Joe Rogers is back at his old place in center in good shape from summer work. Wilson, Edgar and Scott, guards; Fry and Spencer, ends; and Montgomery, tackle, all of last year's squad, are out for positions.

Rollins, Burns, Litterst, Mitchell, Griesenbeck, Thornton, Graham, Galliford and Moses have reported and there will be some hard scrambles for regular jobs in the back field. Ford, tackle; Coleman, fullback, and Giffillan, half, are expected in a few days. Jim Kendrick, last year end, and Abbott, quarter and field general of the 1912 team, are both on the border, but are very anxious to come to school this fall and it is probable that they will be able to arrange it.

The weights and positions of the men who have signed up for suits so far are as follows:

Burns, 155, quarter; Anderson, 165, tackle; Cochran, 160, back; Wilson, 216, guard; Johnson, 165, end; Echenburg, 177 (will probably be tried at end on account of his speed and abundance of good guard material); Eggar, 165, center; Fry, 158, end; Montgomery, 168, tackle; Harner, 140, end; Mitchell, 163, half; Spencer, 198, half; Moses, 150, half.

BANKER SEES DANGER IN GREAT WEALTH

Says Same Is Likely to Submerge Us in Our Own Prosperity—Urges Preparedness.

(By Associated Press.)

Kansas City, Mo., Sept. 28.—General sessions of the American Bankers' Association opened with a large attendance. The sessions were the first of the body as a whole, the early part of the week having been devoted to sectional conferences and committee meetings. A warning to Americans that they should not take too easily the great wealth of this country, which seems dangerously likely to submerge us in our own prosperity, was given by Frank A. Vanderlip of New York, in an address before the convention. "I believe the greatest need of today is universal military, industrial and economic preparedness," he said.

end; Rogers, 165, center; Edgar, 195, guard; Griesenbeck, 170, back; Settegast, 198, tackle; Crow, 193, tackle; Rollins, 170, half; McKnight, 230, guard; Litterst, 137, quarter; Scott, 185, guard; Thornton, 162, half; Francis, 175, guard; Doney, 167, end; Graham, 155, half; Galliford, 165, end; Mitchell, 163, half; Spencer, 198, half; Moses, 150, half.

SECOND NORTHER MAKES APPEARANCE

Second Norther of Season Started Blowing at Noon and Real Cool Weather Can Be Expected.

The second norther of the season, which was predicted by John Daly, Jr., local weather observer, was a little late in arriving, but has at last made its appearance. This gentleman says that according to his telegraphic reports this spell will be considerably cooler than the last and that the temperature will probably fall to 45 degrees above zero, or about 12 to 15 above the freezing point, before daybreak in the morning. If this prediction comes true the cover this gentleman had you unpack about a week ago will come in handy tonight.
